

## Masters of Pharmacy in Clinical Pharmacy (M.Pharm Clinical Pharmacy)

### Executive Summary

Over the past four decades, there has been a global trend for pharmacy practice to move away from product focus to a patient-centred care model ensuring the safe and effective use of medications in all practice settings. Thus, the role of the pharmacist has evolved from that of a compounder and supplier of pharmaceutical products to that of a provider of services and information, and ultimately, that of a provider of patient care.

The mission of the Mbarara University of Science and Technology (MUST) Master of Pharmacy in Clinical Pharmacy degree program is to provide the graduate with the relevant knowledge base, skills, attitudes, ethics and values to engage in clinical practice as a member of a multidisciplinary healthcare team, and expand career opportunities in the field of clinical pharmacy.

This two-year, full time (80 credit total) postgraduate degree program is delivered in a multidisciplinary approach, combining didactic, laboratory simulation, experiential and research as an integral part of learning.

The program is housed in the Faculty of Medicine, drawing expertise from various departments of the health sciences, and offers both taught courses within the university, and clinical/research experiences at the Mbarara Regional Referral Hospital in the various wards, including, but not limited to emergency & critical care, paediatrics, oncology, surgery, obstetrics & gynaecology, Internal medicine, psychiatry, TB/HIV.

Upon completion of the training, the graduates should be able to:

- Deliver pharmaceutical care (Monitor, evaluate, design, recommend and implement patient specific pharmacotherapeutic plans).
- Be involved in research and academia
- Play leadership role in therapeutics

Completion leads to the award of the Master of Pharmacy (M.Pharm) degree in clinical pharmacy.

For more information about the master's program, contact:

**Prof. Robert Tamukong, Tel: +256-773-225785, email: [tamukong@must.ac.ug](mailto:tamukong@must.ac.ug)**

For more information about application procedure / requirements, contact:

**Ms. Martha Kyoshaba Twinamasiko, Academic Registrar email: [ar@must.ac.ug](mailto:ar@must.ac.ug)**

## CALL FOR APPLICATIONS

Applications are invited from eligible candidates for the following program offered at Mbarara University of Science and Technology (MUST), Department of Pharmacy, Faculty of Medicine.

### MASTERS OF PHARMACY IN CLINICAL PHARMACY (M.PHARM CLINICAL PHARMACY)

Programme Duration: **2 YEARS**    Minimum CGPA: **2.80**

#### Minimum Entry Requirements

- a) Hold the Uganda Certificate of Education (UCE)/O' Level or its equivalent with a minimum of a pass in at least 5 subjects obtained at the same sitting.
- b) Hold the Uganda Advanced Certificate of Education (UACE)/A' Level with at least 2 principal passes or its equivalent obtained at the same sitting for applicants to a degree program.
