**REPORT OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF
MBARARA UNIVERSITY OF SCIENCE AND TECHNOLOGY FOR THE YEAR ENDED
30TH JUNE, 2022**

THE RT. HON. SPEAKER OF PARLIAMENT

Opinion

I have audited the accompanying financial statements of the Mbarara University of Science and Technology (MUST) for financial year ended 30th June 2022, which comprise the Statement of Financial Position as at 30th June 2022, the Statement of Financial Performance, Statement of Changes in Equity and Statement of Cash Flows together with other accompanying statements for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the financial statements of Mbarara University of Science and Technology for the financial year ended 30th June 2022 are prepared, in all material respects, in accordance with Section 51 of the Public Finance Management Act, 2015 and the Financial Reporting Guide, 2018.

Basis for Opinion

I conducted my audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the University in accordance with the Constitution of the Republic of Uganda, 1995 (as amended), the National Audit Act, 2008, the International Organization of Supreme Audit Institutions (INTOSAI) Code of Ethics, the International Ethics Standards Board for Accountants (IESBA) Code of Ethics for Professional Accountants (Parts A and B) and other independence requirements applicable to performing audits of Financial Statements in Uganda. I have fulfilled my other ethical responsibilities in accordance with the IESBA Code, and in accordance with other ethical requirements applicable to performing audits in Uganda. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key Audit Matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters. I have determined the matters described below to be key audit matters communicated in my report.

• **Implementation of the Approved Budget**

Paragraph 2 of Schedule 5 of the PFMA, 2015 requires Accounting Officers to prepare an appropriation account showing the services for which the money expended were voted, the sums actually expended on each service and the state of each vote compared with the amount appropriated for that vote by Parliament.

Over the years, I have observed improvements in the performance regarding implementation of the budget but entities still face a number of challenges including

COVID, which continue to affect implementation of activities, service delivery and credibility of the budget. It is against this background that budget performance was considered a key audit area during the office-wide planning. I reviewed documents such as work plans, performance reports, conducted interviews and physical inspection in arriving at my findings.

Mbarara University of Science and Technology (MUST) is mandated under Universities and other Tertiary Institutions Act, 2001 (as amended), to deliver Tertiary Education to Ugandans and non-Ugandans.

The entity had an approved budget of UGX. 59,170,985,900 out of which UGX. 54,671,075,130 was warranted. The entity's key deliverables for the financial year under review were as shown in the table below;

Table: Showing key deliverables for MUST for the year-

	Total			59,170,917	

I reviewed the implementation of the approved 2021/2022 budget by the entity and noted the following;

No	Observation	Recommendation
1.1	<p>Revenue Performance</p> <p>Performance of Non-Tax Revenue (NTR)</p> <p>I reviewed the NTR estimates, revenue sources and rates charged at vote level for the financial year 2021/2022 and noted that the entity budgeted to collect NTR of UGX.12.477Bn during the year under review. Out of this, only UGX.10.844Bn was collected, representing a performance of 87% of the target.</p> <p>The inadequate performance in NTR performance was partly attributed to non-payment of tuition fees by some students.</p> <p>Shortfalls in NTR collections at vote level result in aggregate NTR/revenue shortfalls at the Treasury level,</p>	<p>The Accounting Officer was advised to institute more enforcement procedures like paying on the first day of the semester.</p>

which negatively affects the implementation of planned activities by government. In addition, unrealistic NTR estimates at vote level result in un-realistic NTR estimates at Treasury level which negatively affects the credibility of the budget.

The Accounting Officer indicated that the enforcement procedures were in place as provided for in the fees policy which was being revised to include penalties for delayed payments. This is in addition to not permitting any student to sit for exams without payment.

Performance of GoU Receipts

According to the approved budget, the entity was supposed to receive UGX. 59.171Bn out of which UGX.54.671Bn was warranted, resulting in a shortfall of UGX4.53Bn. The shortfall represents 7.6% of the revised approved budget.

The funds that were not warranted were meant to facilitate the implementation of the following activities, which were either partially implemented or not implemented at all.

The Accounting Officer was advised to liaise with MOFPED to ensure that GOU funds are released as planned.

No	Out put	Activity	Budget Amount	Purpose
1	713 76	Equipment & accessories to enhance network operating services procured & Installed, 1 Server for LMS & 27 Desktop Computers for Students procured. Wireless network at Kihumuro expanded. Network infrastructure in Lab-III FCI renewed & upgraded	200,000,000	Facilitate learning of students
2	713 78	Assorted Furniture & Fittings for Offices, Lecture rooms and Laboratories procured & installed	140,000,000	Facilitate learning of students
3	713 77	Assorted Machinery & Equipment for Offices, Laboratories and teaching procured	313,768,714	Facilitate learning of students
4	713 80	Phase 2 construction Works for FCI continued,	2,651,000,00	Facilitate learning of students
Total			3,310,768, 714	

	The Accounting Officer indicated that follow up on releases was being made.																															
1.2	<p>Utilization of Warrants</p> <p>Out of the total warrants of UGX.54.671Bn received during the financial year, the entity submitted invoices totalling UGX.53.870Bn resulting in un-utilized warrants of UGX.0.802Bn representing an absorption level of 99%.</p> <p>The warrants that were not utilised were meant for the following activities which were subsequently partially or not implemented at all.</p> <table border="1"> <thead> <tr> <th>N o</th><th>Out-put</th><th>Activity</th><th>Amount</th><th>Reason for underutilizatio n of warrants</th></tr> </thead> <tbody> <tr> <td>1</td><td>071319 - Human Resource Management Services</td><td>Salaries</td><td>170,301,306</td><td>Saving from late recruitment of staff</td></tr> <tr> <td>2</td><td>04 Faculty of Medicine</td><td>Salaries</td><td>330,962,128</td><td>Saving from late recruitment of staff</td></tr> <tr> <td>3</td><td>04 Faculty of Medicine</td><td>Social Security Contributions</td><td>60,323,499</td><td>Saving from late recruitment of staff</td></tr> <tr> <td>4</td><td>07 Faculty of Computing and Informatics</td><td>Salaries</td><td>33,852,615</td><td>Saving from late recruitment of staff</td></tr> <tr> <td colspan="2">Total</td><td></td><td>603,539,548</td><td></td></tr> </tbody> </table> <p>As a result of failure to absorb funds the entity still has staffing gaps affecting service delivery.</p> <p>The Accounting Officer explained that the recruitment exercise has many processes that begin at budgeting, release of funds, running adverts short listing, interviewing etc.</p> <p>A release for recruitment was made in June 2022 when the financial year was ending and such processes could not be implemented.</p>	N o	Out-put	Activity	Amount	Reason for underutilizatio n of warrants	1	071319 - Human Resource Management Services	Salaries	170,301,306	Saving from late recruitment of staff	2	04 Faculty of Medicine	Salaries	330,962,128	Saving from late recruitment of staff	3	04 Faculty of Medicine	Social Security Contributions	60,323,499	Saving from late recruitment of staff	4	07 Faculty of Computing and Informatics	Salaries	33,852,615	Saving from late recruitment of staff	Total			603,539,548		The Accounting Officer was advised to always ensure that recruitments are done on time as planned.
N o	Out-put	Activity	Amount	Reason for underutilizatio n of warrants																												
1	071319 - Human Resource Management Services	Salaries	170,301,306	Saving from late recruitment of staff																												
2	04 Faculty of Medicine	Salaries	330,962,128	Saving from late recruitment of staff																												
3	04 Faculty of Medicine	Social Security Contributions	60,323,499	Saving from late recruitment of staff																												
4	07 Faculty of Computing and Informatics	Salaries	33,852,615	Saving from late recruitment of staff																												
Total			603,539,548																													
1.3	<p>Appropriateness of Key Performance Indicators-</p> <p>Regulation 11 (2) b of the Public Finance Management Regulations 2016, states that the work plan of a vote shall indicate the key performance indicators to be used to gauge the out-puts.</p> <p>In order to correctly measure performance, the performance indicators should be appropriate in respect to the activities for which performance is being assessed/measured.</p> <p>I reviewed the performance indicators in the approved work plans and observed that the indicators used to measure performance for some activities would not provide the most appropriate measure of performance. In some cases, the indicators were generic and not specific to the activity while in other cases, management did not provide indicators.</p>	The Accounting Officer was advised to always ensure that the performance indicators used to measure performance are appropriate and facilitate accurate assessment of performance.																														

	<p>Using in-appropriate performance indicators to measure performance negates the purpose of performance measurement, impairs accountability for funds appropriated, and is likely to mislead the users of the performance information produced.</p> <p>Accounting Officer explained that they will try as much as possible to ensure that the performance indicators used to measure performance are appropriate and facilitate accurate assessment of performance.</p> <p>Please note that Cross cutting issues indicators are usually in a separate report that is never generated by the system.</p>	
1.4	<p>Implementation of Outputs and Activities</p> <p>I assessed the implementation of a sample of twenty-five (25) outputs that had been fully quantified with a total of eighty-three (83) activities worth UGX.41.861Bn and noted that;</p> <ul style="list-style-type: none"> • Ten (10) outputs with twenty (20) activities and expenditure worth UGX.1.629Bn were fully implemented. • Thirteen (13) outputs with fifty-nine (59) activities worth UGX.40.073Bn were partially implemented. Out of the fifty-nine (59) activities, the entity fully implemented twenty (20) activities; eighteen (18) activities were partially implemented, while twenty-one (21) activities remained unimplemented. • Two (2) outputs with four (4) activities worth 0.159Bn were not implemented at all. <p>Non-implementation of planned activities implies that the expected services to the beneficiary communities were not attained. For example, the university did not implement the following planned activities despite having received the required funds. Details in Appendix I</p> <ol style="list-style-type: none"> 1. Under 03 Faculty of Science, in 071402 Research and Graduate Studies, the University did not implement <ol style="list-style-type: none"> a) 2 Research studies b) 3 Publications <p>The Accounting Officer explained that 1 Research was done but 3 publications made instead of the planned 1 publication and 1 research workshop for capacity building conducted.</p> <p>Other areas where there was partial implementation were mainly due to Inadequate releases and change in academic calendar.</p>	<p>The Accounting Officer was advised to always ensure that activities and outputs are implemented as planned.</p>

Emphasis of Matter

Without qualifying my opinion, I would like to draw the readers' attention to the following matter which has been disclosed in Note 19 (a) of the financial statements of the University;

- Delayed Collection of Receivables: UGX. 958,118,173**

A review of the balance sheet, under receivables and Note 19(a) revealed that receivables from 2020/21 worth UGX. 958,118,173 had not yet been paid. Delayed collection of the receivables could lead to loss of revenues to the University. The Accounting Officer explained that, delay in the collection of receivables was due to the effects of covid-19 that led to failure by students/parents to raise the required funds and consequently such students could not register, asked for dead years and absconded.

I advised the Accounting Officer to attach a schedule of all receivables to the financial statement, and also institute enforcement mechanisms for collections.

Other Information

The Accounting Officer of the University is responsible for the other information. The other information comprises the statement of responsibilities of the Accounting Officer and the commentaries by the Head of Accounts and the Accounting Officer, and other supplementary information. The other information does not include the financial statements and my auditors' report thereon. My opinion on the financial statements does not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially consistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information; I am required to report that fact. I have nothing to report in this regard.

Management Responsibilities for the Financial Statements

Under Article 164 of the Constitution of the Republic of Uganda, 1995 (as amended) and Section 45 of the Public Finance Management Act, 2015, the Accounting Officer is accountable to Parliament for the funds and resources of Mbarara University of Science and Technology.

The Accounting Officer is also responsible for the preparation of financial statements in accordance with the requirements of the Public Finance Management Act, 2015 and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

In preparing the financial statements, the Accounting Officer is responsible for assessing the University's ability to continue as a going concern, disclosing, as

applicable, matters related to going concern and using the going concern basis of accounting, unless the Accounting Officer has a realistic alternative to the contrary.

The Accounting Officer is responsible for overseeing the University's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement, when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users, taken on the basis of these financial statements.

As part of an audit in accordance with ISSAIs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also;

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the University's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the University to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Accounting Officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the Accounting Officer with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my Independence, and where applicable, related safeguards.

From the matters communicated with the Accounting Officer, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, In extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Reporting Responsibilities

In accordance with Section 19 (1) of the National Audit Act, 2008, I report to you, based on my work described on the audit of Financial Statements, that; except for the matters raised in compliance with legislation section below, and whose effect has been considered in forming my opinion on financial statements, the activities, financial transactions and information reflected in the financial statements that have come to my notice during the audit, are in all material respects, in compliance with the authorities which govern them.

Report on the Audit of Compliance with Legislation

In accordance with Section 19 of the NAA 2008, I have a responsibility to report material findings on the compliance of the Ministry with specific matters in key legislations. I performed procedures primarily to identify findings but not to gather evidence to express assurance.

The material findings in respect of the compliance criteria for the applicable subject matters are as follows;

- **Splitting of Procurements: UGX. 311,643,492**

Regulation 7 of the PPDA (Rules & Methods of procurement of services, works and Non-Consultancy Services Evaluation) Regulations 2014 requires the Micro procurement to be used for unforeseen requirements where the estimated value of the procurement does not exceed the threshold prescribed in guidelines issued by the Authority. Regulation 6(1) PPDA (PDES) Regulations 2014, states that a procuring and disposing entity shall not split a procurement requirement where the requirement can be procured as a single contract.

I noted that procurements totalling to UGX. 311,643,492 sourced using Micro procurement were split to fit within the set threshold of UGX. 5,000,000. Splitting of procurements is irregular and may lead uncompetitive and unfair procurements.

The Accounting Officer explained that, the University had framework contracts with the suppliers involved in supply of stationery, toners and cartridges, cleaning materials, garbage collection services, compound maintenance, cleaning services among others and that most of the LPOs that appeared as split procurements were actually generated to facilitate payments for the call off orders under these framework contracts. However, management did not avail the framework contracts.

I advised the Accounting officer to always ensure that set thresholds are adhered to when procuring supplies and works.

- **Unauthorized Multi-Year Expenditure Commitment**

Section 19 (1&2) of the Public Finance Management Regulation, 2016 states that an Accounting Officer who implements a project for more than one financial year shall, prior to the commencement of the project, demonstrate to the Minister that the financial Commitments for implementing the project are within the Medium Term Expenditure Framework and that a project that is to be implemented over a period of more than one financial year, shall have priority in the subsequent budgets of the vote, for the duration of the project.

I noted that the University entered into a contract worth UGX. 8,397,814,309 with a contractor to construct Phase 2, of faculty of Computer Formatics, for a period of 18 months. I further noted that the funds to pay for the multi- year project were not released as budgeted, an indicator that the Accounting Officer did not prior to starting this project engage the Minister of Finance for financial commitments. The failure to provide funds for the multi-year project may lead to costs over runs and unnecessary variations as a result of inflation and interest.

The Accounting Officer explained that, the University had been building the Faculty of Computing and informatics in Phases due to limited resources. The contract was awarded at once in its entirety. As a result of inadequate development funds availed to the University, the obligation created by the commitment is not supported and captured by the MTEF.

I advised the Accounting Officer to regularise the commitment created by engaging MoFPED to provide funds.

- **Management of Information Technology (IT) Investments In Government**

For the current year 2021/2022, the entity budgeted for UGX. 363,194,000 for acquisition and implementation of IT systems and equipment and received UGX. 226,122,986.

A review of ICT activities implemented revealed the following:

No	Observation	Recommendation
8.1	<p>Procurement/Development and Use of Software/Licenses (IT Systems) and Equipment</p> <p>The ICT Systems Development Lifecycle (SDLC) requires a systematic approach which includes; Initiation, planning and execution. In addition, I made my assessment basing on PS/ST and NITA-U guidance on ICT developments which aim to promote rationalisation and avoid further development of isolated IT systems in MDAs and LGs. During the audit of MUST, I observed the following;</p> <ul style="list-style-type: none">i. A total of 3 IT systems/equipment procured at UGX. 122,410,500 were not cleared by NITA-U, while systems costing UGX. 122,410,500 did not have clearance from MoFPED, as indicated in Appendices III(a) and III(b) respectively.ii. User requirements and system specifications were not complied with for total of 3 systems with acquisition cost of UGX. 122,410,500 as observed from the system requirements. Refer to Appendix III(c).iii. I reviewed documents relating to the procurement of 3 systems and noted that the systems are not owned by the entity; as a result, it increases the exposure of the entity to vendor manipulation. Appendix III (d). <p>Non-compliance could lead to duplication of acquisition, procurement of non-compatible solutions and equipment; and general deviation from Government's efforts to rationalize resources for better service delivery.</p> <p>The Accounting Officer explained that the systems in question were acquired after substantive review of the user requirements of the prospective users.</p> <p>For example, the Zoom license acquired from NITA-U came in at a time the university was completely locked as a result of COVID. The need to upgrade the Learning Management System was also generated from feedback from both students and academic. This engagement culminated in the commissioning of an online needs assessment tool in 2020 to both academic staff and students to measure the university's ability to take on e-learning as an option during the COVID-19 lockdown.</p> <p>The Turnitin Anti Plagiarism tool had for long been a requirement from the Directorate of Research and Graduate Training for use, especially with Postgraduate student to measure the level of</p>	I advised the Accounting Officer to enhance controls and improve compliance with the policies and guidelines.

No	Observation	Recommendation
	<p>plagiarism of their proposals and dissertations before graduation from the university. The use of an Anti-plagiarism tool is actually stipulated in the university's Post graduate handbook.</p> <p>The need to always clearly stipulate business cases and seek approval for all ICT procurement specifications from NITA-U and other government agencies has been noted and shall be implemented hence force.</p>	
8.2	<p><u>ICT Governance</u></p> <p>IT governance entails leadership, structures, and processes that enable an organization to make decisions to ensure that its IT sustains and extends its strategies and objectives. However, a review of the ICT governance structure of the entity revealed that;</p> <ul style="list-style-type: none"> i. The entity did not have an approved IT staff structure in place despite ICT prioritisation in NDP III. ii. The entity has no ICT staff establishment. iii. There was no approved IT risk management framework/policy at the entity, and risk register. iv. There was no business continuity plan, contrary to Section 4.6 of the National Information Security Policy 2014. <p>Absence of ICT governance structures hampers formulation of appropriate ICT policies, strategies and real time upgrade of ICT interventions. In addition, it may lead to misalignment of IT investments with the overall entity strategic objectives.</p> <p>The Accounting Officer explained that the structure was being done in consultation with Public service.</p>	I advised the Accounting Officer to institute governance policies, structures to effectively manage ICT investments in consultation with other stakeholders.

John F.S. Muwanga
AUDITOR GENERAL

19th December, 2022

Financial Statements

APPENDICES

Appendix I: Implementation of outputs and activities

Details		Extent of implementation of Out-puts				Reasonableness of budget for the output						
Programme/ Project (A)	Output (B)	Activities (C)	Planned Target for the Financial year (D)	Is the performance indicator used by Management reasonably? Yes/No (E)	Actual Performance (F) = (C)-(D)	Variance Conclusion (G) = (F)-(D)	Audit Conclusion (H)	Budgeted amount UGX ('000) (I)	Revised budget UGX ('000) (J)	Amount Spent UGX ('000) (K)	Is the total budget of the output a summation of activity costs of the individual activity budgets? Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

Statement of Responsibilities of the Accounting Officer

The financial statements set out on pages 8 to 14 have been prepared in compliance with the provisions of the Public Finance Management Act, 2015 (the Act) and the generally accepted accounting principles for the public sector. They have been prepared on the modified accrual basis of accounting where revenue is recognized when earned with the exception of taxes and grants which are recognized when received. Expenditure on the other hand is recognized when incurred as further detailed in the accounting policies attached to these financial statements.

In accordance with the provisions of Section 45 and Schedule 5 of the Public Finance Management Act, 2015, I am responsible for and personally accountable to Parliament for the activities of the vote to which I am the accounting officer. Further, I am responsible for the regularity and proper use of the funds appropriated to the vote to which I am the Accounting Officer. I am also responsible for authorizing any commitments made by the vote and for controlling resources received, held or disposed of by or on account of the vote. Finally, I am responsible for putting in place effective systems of risk management and internal control in respect to all resources and transactions of the vote.

Section 45 (3) of the Act require the Accounting Officer to enter into an annual budget performance contract with the Secretary to the Treasury which shall bind the Accounting Officer to deliver on the activities in the work plan of the vote for a financial year.

Sections 50 and 51 of the Act require me to prepare and submit financial statements of my vote to the Accountant General for consolidation and to the Auditor General for audit within the specified timelines using the prescribed formats.

Accordingly, I am pleased to report that I have complied with these provisions in all material respects and I am also pleased to submit the required financial statements in compliance with the Act. I have provided, and will continue to provide all the information and explanations as maybe required in connection with these financial statements.

To the best of my knowledge and belief, these financial statements agree with the books of account, which have been properly kept.

I accept responsibility for the integrity and objectivity of these financial statements, the financial information they contain and their compliance with the Public Finance Management Act, 2015 as amended.

MELCHIOR BYARUHANGA

Accounting Officer [Names & Signature]

27/11/2022

Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

Commentary on the Financial Statements by the Accounting Officer

General Information about the Reporting Entity

Principal Activity of the Vote

The... Mbarara University of Science and Technology is mandated under Sec 24 of UOTLA to deliver Tertiary Education.

Mission and Vision

Vision: A Centre for academic and professional excellence in science and technology

Mission: To provide quality and relevant education at national and international level with particular emphasis on science and technology and its application to community development

University Objectives

- To advance, transmit and preserve knowledge from one generation to the next;
- To provide the necessary human resource in applied sciences, technology and management skills;
- To generate and disseminate knowledge and innovation;
- To provide services to the public in analyzing and solving problems;
- To teach students to understand and appreciate local, national and international issues.

Key Performance highlights

During the reporting period, the vote undertook the following activities and major outputs

1) Teaching and training

The University enrolled and registered 5,030 (37% Female), Conducted 21 weeks of lectures & practicals out of expected 35 weeks and 5 weeks of examinations out of expected 6 weeks. Paid 50 external examiners and purchased 211 copies of text books. Paid Faculty allowance to 520 government sponsored students.

2) Research and graduate studies.

Conducted 3 research studies and made 2 publications. 2 research workshops were conducted 3 PhD researches were facilitated. 3 seed funds were given to MLST innovators to support technology development. 1 Annual Research dissemination conference was held.

3) Outreach

Conducted 5 weeks School practice for 296 (21.6% Female) BSc.Ed students in 149 single & mixed Secondary Schools across the country; Industrial training for 68 (31.4% Female) DLT students in 18 locations of 6 districts, 7 weeks of CXTRERS for 375 (36% Female) students of MBchB, BNS, MHS, BMH & BSP across the south western region selected placement Health facilities, 57 students participated in Nursing practical & domiciliary for 21 days in 15 schools across south western region. 4 weeks industrial training for 112 Pharmacy & Pharmaceutical students conducted in 6 Industries and 4 Hospitals mainly in central region. 2 weeks Industrial training for 354 (22.9% Female) students of BMH, PSEM, EHE & BCR conducted in 9 districts of central region and 15 districts of western region; 2 weeks Industrial Training for 105 (21% Female) students of BFT, BCS and BSc. Sis conducted in over 12 sites in central and western Uganda; 2 weeks Industrial Training for 350 (50.9% Female) Students of BSAP, BBA, BPSM, and HFCD was conducted across the country. Farm attachment was done for 46 students (28%Female) at Ibo farm, Kyera farm and Kamugasha dairy farm. 24 students taken for Apiculture and Aquaculture.

4) Administration and support services

Paid for 307,645.7 units of electricity and 48,649.96 units of water. Maintained 12 hectares of compounds and 17,563 m² of lecture rooms/labs and students halls. Conducted routine maintenance of buildings, equipment, 14 vehicles and 2 lifts in EAST building. Held 30 council and council committee meetings as well as 1 council induction workshop. Paid living out allowance for 634 government sponsored students and paid for 94 Mbps for internet. Paid Gratuity for VC, DVC, F&A, AR, US, DHIR, DVC AA and Director, DRGT.

Financial statements for 2020/21 were prepared and submitted to MCFPHD and OAG. Half year and Nine-months accounts for FY 2021/22, as well as budget performance reports for Quarter 1,2 and 3 and 4 were prepared and submitted. Trained staff in the updated IFMS and revised chart of accounts.

12 Academic programmes were reviewed and submitted to NCHE for re-accreditation and conducted a graduation ceremony for 1,319 graduates. Transferred funds to FPPC, Guild and sports for their activities as well as payments for subscriptions.

One consolidated procurement plan was prepared, approved and implemented.

5) Government Buildings

Paid for reconnection certificate for Faculty of Computing & Informatics to Ms. Steam Inv. Ltd and installed 415V (3N) power line.

Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

PCI Phase 2: 90% preliminary work, 10% Electrical, 10% Mechanical and 50% Internal Line plaster and 10% External Plaster (External and internal facilities, electrical and mechanical installations, fixtures and fittings, parking & stone patching) done although not paid for.

6) Roads, streets and highways

Carried out Chemical stabilisation priming, Bitumening, Kerblines, drains of main access road in Kibemiro campus.
7) Machinery and Equipment

Procured Network upgrade for PCI Computer lab and Extension Wireless to Kibemiro, Cisco Catalyst switches WS-C3850-24, Kaspersky Endpoint security for business-L 2626, Hardware and Software upgrade for the Learning Management System, 2 Enterprise Servers, 1 layer 2 network switch- Cisco, 2 Fibre ESU modules, 2 Fiber patch cable 10m, 1 Server for LMS and 27 Desktop Computers for Students.

8) Furniture and Fittings

Procured 108 metres of curtains for Ligan Students Hostel and Board room, 1 Orthopedic chair and curtains for Bursar's office, 44 reading chairs, 50 Seminary twin chairs and 52 reading tables for FAST.

The challenges during the financial year were budget cuts that affected recurrent budget activities and mostly Development budget where the release was only 30%.

Risk Management Practice and Internal Control

The Vice chancery maintained a system of internal control through the governance structures where we have the council and various committees that conduct oversight of all University activities and programmes. The administrative structure is established with clear job descriptions, the Vice has an independent internal audit unit, functioning procurement and disposal unit, department of University Secretary, University Bursar, Estates and Works, Faculty deans and others, above all the office of the Vice Chancellor carries out the executive role.

The Vice operates approved budgets with related work plans and procurements plan; periodic reports are prepared and reviewed quarterly. The internal audit unit has the capacity to carry out continuous review of internal controls and report to Audit and Risk Committee of Council, whose recommendations are implemented accordingly. Payments are effected using Integrated Financial Management System (IFMS), salary and payroll management is done using IPPS. Student fees and other incomes are collected using Academic Management Information System (AMIS).

Action on Parliamentary Recommendations

Actions taken on Parliamentary recommendations was in accordance to Treasury memorandum for F/Y 2015/2016 and the responses are contained in the audited financial statements for F/Y 2020/2021. We have not received any other Treasury memorandum for subsequent years.

Comment on the Payroll for both salary and Pensions

The University spent Ugx 40,559,751,268 on salaries for 576 staff during the year under audit and Ugx 487,276,492 as gratuity for 10 contract staff.

MELCHOIR BYARUGA

.....
Accounting Officer [Name & Signature]

Notes to the Financial Statements

Note 1(a): Accounting Policies

These are the specific principles, bases, conventions, rules and practices adopted by the Government of the Republic of Uganda in preparing and presenting the financial statements. The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied in all material aspects unless otherwise stated.

(i) General Information

As required by Sections 50(1) and 51(1) of the Public Finance Management Act, 2015, each vote shall prepare financial statements and submit a copy to the Accountant General. The Annual Accounts shall be submitted for Audit to the Auditor General.

(ii) Reporting Entity

Mbarara University of Science and technology is a reporting entity of the Government of the Republic of Uganda and is domiciled in Uganda

The principal address of the entity is:

a) Block 37 Karuru Plot 21, Mbarara – Bushenyi Road, P.O Box 1410, Mbarara, Uganda.

Tel +256 483421373 Website: www.musit.ac.ug

b) Established by MUSET statute of 1989, which was repealed and replaced by the UOTIA, 2001 (as amended).

Mission: To provide quality and relevant education at national and international level with particular emphasis on science and technology and its application to community development

Vision: To be a center of Academic and Professional Excellence in science and Technology.

The mandate is to promote quality higher education for national integration and development through teaching of science and technology for promotion of the political, economic and social development of Uganda and the needs aspirations of Republic of Uganda.

Core functions: Teaching, learning and leadership, Research and Innovation, Outreach and Community Engagement.

c) There is Institute of Tropical Forest Conservation located in Bwindi, Rubanda District.

(iii) The Consolidated Fund

Is the Consolidated Fund as established by the Article 153 of the Constitution of the Republic of Uganda. As provided by Section 30 of the Public Finance Management Act, 2015 (the Act), it is the Fund into which all revenues or other money raised or received for the purpose of the Government shall be paid. Except for receivables into another public fund established for a special purpose (for example the Petroleum Fund) where this is authorized by an Act of Parliament, or where a vote, state enterprise or public corporation shall retain revenue collected or received as authorized through an appropriation by Parliament or is a monetary grant exempted under Section 44 of the ACT.

Withdrawals from the Consolidated Fund shall only be done upon the authority of a warrant of expenditure issued by the Minister of Finance to the Accountant General after a grant of credit has been issued to the Minister by the Auditor General in the first instance. The withdrawal can be effected only when: (a) the expenditure has been authorized by an Appropriation Act or a Supplementary Appropriation Act; (b) is a statutory expenditure; (c) for repaying funds received in error by the Consolidated Fund; (d) and for paying sums required for an advance, refund, rebate or drawback that are provided for in this and other Act of Parliament.

(iv) Classified expenditures

Classified expenditures are included under supply of goods and services in the Statement of Financial Performance, and are audited separately. The funds appropriated for classified expenditure shall only be used for defense and national security purposes. A committee of Parliament comprising the chairpersons of the

committees responsible for budget, defense and internal affairs; and another member appointed by the Speaker will be responsible for scrutiny of classified expenditure budget.

(v) Basis of preparation of financial statements

The financial statements have been prepared in accordance with the requirements of the Public Finance Management Act, 2015 [the Act] and comply with generally accepted accounting principles. The Financial Statements have been prepared using the modified accrual basis of accounting. The modified accrual basis of accounting recognizes revenue when earned with the exception of revenue from taxes and grants that is recognized when received. Expenses are recognized when incurred resulting into recognition of payables in the statement of financial position. All non-current assets with the exception of non-produced assets are expensed 100% in the year of acquisition in the statement of financial performance.

(vi) Going concern consideration

The financial statements have been prepared on a going concern basis.

(vii) Presentation currency

The reporting and presentation currency is the Uganda Shilling (Shs), which is the functional currency of the Republic of Uganda. Items included in the financial statements are measured in the currency of the primary economic environment in which the entity operates.

(viii) Reporting Period

The reporting period for these financial statements is from 1 July 2021 to 30th June 2022. Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format in the current year's financial statements.

(ix) Appropriation

The initial approved budget is the original forecast as presented and approved by Parliament. A revised budget is the initial approved budget adjusted by a supplementary and reallocations/variations.

(x) Revenue

Revenue represents cash and grants in kind received by the entity during the financial year and comprise; tax and non-tax revenue, transfers received from Treasury, transfers from the Contingency Fund and transfers received from other government units. Revenues are recognized as follows;

a) Tax revenues

Taxes are levied with the authority of Parliament subject to Article 152 of the Constitution of the Republic of Uganda. Payment of tax does not necessarily result into an entitlement to the taxpayer to receive equivalent value of services or benefits. All tax revenues are recognized when received.

b) External Assistance

Grants are received by the entity either as cash or in-kind from foreign governments (bilateral) or from International Organizations (multi-lateral). All grants (aid assistance) are recognized as income when received. In-kind receipts(donations) are recognized at fair value when received.

c) Transfers received from Treasury

Transfers received include; transfers received from the Consolidated Fund, and transfers received from other government units. All transfers are recognized when received by the Accounting Officers.

d) Transfers from other government units

Comprise funds appropriated under one vote but transferred to another vote for execution of the intended activities of the former. These might include road maintenance funds from the Road fund, immunization funds from Ministry of health among others. These funds are recognized when received.

(c) Non-Tax Revenue

Non-Tax Revenue (NTR) refers to all revenue due to government that is not tax revenue. Examples include proceeds from sale of designated goods and services, hire of assets, interest/gains associated from ownership of shares and fines/penalties. NTR whether directly collected by the entity or collected by another on its behalf is recognized when revenue is earned. NTR earned but not received is reported in the statement of Financial Position as receivables.

(xi) Expenses

Generally, expenditure is recognized when it is incurred. Qualifying¹ unsettled expenditure is recognised in the Statement of Financial position as payables. Payments of pension to existing retirees are recognized in the statement of financial performance and any arrears on such payments recognised in the statement of financial position. Pension liability for non-retirees is neither recognised nor disclosed in the financial statements.

(xii) Property, Plant and Equipment (physical assets or fixed assets)

Property, plant and equipment (PPE) principally comprises buildings, dams, roads and highways, hydropower stations, plant, vehicles, equipment, and any other infrastructure assets but does not include land and regenerative natural resources such as forests and mineral resources.

Acquisitions of PPE are recorded in the asset register on receipt of the item at cost and expensed fully through the Statement of Financial Performance. Cost of the item is defined as the total cost of acquisition. Where the cost of the PPE cannot be determined accurately, the PPE is stated at fair value. Subsequent repairs and maintenance costs of PPE are also expensed as goods and services consumed in the Statement of Financial Performance.

Proceeds from disposal of property, plant and equipment are recognized as non-tax revenue in the period in which it is received.

(xiii) Translation of transactions in foreign currency

Foreign currency transactions are translated into Uganda Shillings using the exchange rates prevailing at the dates of the transactions (spot rates). These result into realized gains/losses which are recognized in the Statement of Financial Performance. Foreign currency assets and liabilities held by the entity at year end are translated into Uganda Shillings using the period closing rate for reporting purposes resulting into unrealized gains/losses. The unrealized gains/losses are recognized in the statement of changes in Equity through the revaluation reserve.

(xiv) Revaluation Gains/Losses

Unrealized gains or losses arising from changes in the value of investments, marketable securities held for investment purposes, and from changes in the values of property, plant and equipments are not recognized in the financial statements.

(xv) Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short-term highly liquid investments, and bank overdrafts.

(xvi) Unspent cash balances

In accordance with the requirement of the Public Finance Management Act, 2015, unspent cash balances by Government entities at the end of the financial year are returned through the Single Treasury Account (TSA) to the Consolidated Fund. With the commencement of the TSA, votes fully operational on IFMS no longer have unspent cash balances for Transfers received by MAFGs from the Treasury.

Escrow Account balances are to be recognized in the Financial Position of the responsible entity and expensed through the Financial Performance in the period when funds are utilized.

¹ An entity should be subject to the Internal Audit and External Audit and that of Accounts Officer.

(xvii) Receivables

(a) Accrued Non Tax Revenue and Advances

Receivables include revenue earned but not collected and advances not retited by the reporting date. These are carried at historical cost and are written down by recovered receipts or write-off of unrecoverable amounts (bad debts are written-off with the approval of Parliament, when identified in the Statement of Changes in Equity).

(b) Letters of credit

Procurement of goods and services through letters of credit which are cash covered are recognized in the statement of appropriation when the letter of credit is opened. Outstanding letters of credit at period-end are treated as receivable and expensed through the Statement of Financial Performance in the period when the goods and services are delivered.

(c) Other Receivables

These include expenditure paid for but not consumed during the financial year. Examples include tent expenditure paid for the period crossing financial years.

(xviii) Inventories

Comprise consumable supplies and goods purchased for resale. All inventories are expensed in the period in which they are acquired.

(xix) Investment properties

Investment property principally comprises land, office, commercial and residential buildings, and other physical assets, which is held for long-term rental income and is not occupied internally. Investment property is treated as a long-term investment and is carried at cost. Investment properties are currently not recognised in the financial statements.

(xx) Investments

Investments are classified into three groups, namely: investments held for trading; investments held-to-maturity; and investments available-for-sale.

Investments that are acquired principally for the purposes of generating profit from short-term fluctuations in price are classified as "trading investments", and are, therefore, current assets and are treated as monetary assets.

Investments with fixed maturities and there is an intention and ability to hold them to maturity dates are classified as "Investments held-to-maturity", and are, therefore, non-current assets, and are treated as non-monetary assets.

Investments intended to be held for an indefinite period of time, which may be sold in response to liquidity needs or changes in interest rates, are classified as "investments available-for-sale", and are therefore non-current assets and regarded as non-monetary assets. However, if there is an expressed intention to sell these within 12 months, then these are treated as current assets and are monetary assets.

Appropriate classification of investments at the time of purchase and re-evaluation of such designation are carried out on a regular basis but any resulting reclassifications are rare and cannot be made from "trading investments" to "investments held to maturity".

All investments in the balance sheet are carried at historical cost. Non financial assets are measured at net worth. For investments quoted in foreign currency, the historical cost is translated at the closing rate.

(xxi) Projects expenditure

Government projects are a series of undertakings of a reporting entity with specific objectives and a defined time frame and could be either: (a) fully funded by a Government; (b) jointly funded by Government and a development partner; (c) fully funded by a development partner through either budget support or project support; and (d) fully funded by development partner through provision of physical items rather than funds.

Fully or partly Government funded project expenditure is recognized in the statement of financial performance of the reporting entity to the extent of funding received from Government. Project expenditure that is not recognised is disclosed in the statement/schedule of project/ subvention balances.

(xxii) Borrowings

Borrowings are initially recorded in the Statement of Financial Position [the balance sheet] at cost net of any transaction costs paid.

Interest expense and any other expense on borrowings are recognized in the Statement of Financial Performance when they fall due.

(xxiii) Employee benefits

Employee benefits include salaries, and other related-employment costs. Employee benefits are recognized when incurred. No provision is made for accrued leave or reimbursable duty allowances.

(xxiv) Contingent liabilities and assets

Contingent liabilities are disclosed in a memorandum statement (Statement of Contingent Liabilities) of the entity when it's probable that an outflow of economic benefits or service potential will flow from the entity or when an outflow of economic benefits or service potential is probable but cannot be measured reliably. Contingent liabilities comprise government guarantees issued, court awards that have been appealed by the Attorney General, those arising from Public Private Partnerships (PPPs) etc. Non quantifiable contingent liabilities are disclosed in the memorandum statement of Non quantifiable contingent Liabilities. Contingent assets are neither recognized nor disclosed.

(xxv) Outstanding Commitments

Commitments include operating and capital commitments arising from non-cancellable contractual or statutory obligations. Loan interest due but not paid is recognised in the Statement of Financial Position. The loan interest not yet due for payment is not recognised but disclosed. Outstanding commitments relating to non-cancellable contractual or statutory obligation where goods have been delivered or service provided are included in the statement of financial position as payables and in the Statement of Outstanding Commitments to the extent of the appropriation.

(xxvi) Public Private Partnerships

Any investment by the Government in a Public Private Partnership may be through a joint venture or as an associate or as a major shareholder. Except for the latter, these are accounted for as investments whether held for trading purposes or otherwise. The financial statements in that case are consolidated as if the other entity is a controlled entity in accordance with IPSAS 38.

In other instances where the Government provides certain guarantees which could crystallize and result into an outflow of resources, the guarantees are quantified and disclosed in the memorandum Statement of Contingent Liabilities. The amounts disclosed as part of contingent liabilities represent the most likely outflow of resources should certain events crystallize which are assessed annually. If the events crystallize, the amounts become payables through the Statement of Financial Performance and Statement of Financial Position on an accrual basis.

Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

Other Notes to the Financial Statements

Note 1(b): Exchange Rates

All monetary amounts in the financial statements are expressed in Uganda Shillings, the functional currency. The Uganda Shilling closing rates (the Bank of Uganda middle rate) for major currencies were:

	30 June 2022	30 June 2021
United States Dollar	-	-
British Pound	-	-
Euro	-	-

Transfers received from other Gov't units- Capital <i>(Name of the Government unit)</i>	-	-
Total	-	-

Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

Note 6: Non-Tax Revenues

Comprise non-tax revenues from exchange transactions collected during the year as follows:

	30 June 2022 (Shs)	30 June 2021 (Shs)
Investment income	-	-
Dividends	-	-
Rent	-	-
Other property income	-	-
Sale of goods and services	-	-
Court fines and Penalties	-	-
Other fines and Penalties	-	-
Tuition fees	12,477,712,222	12,30,000,000
Miscellaneous Revenue	-	-
Total Non-Tax Revenue	12,477,712,222	12,430,000,000

Note 7: Employee Costs

Employee costs principally comprise:

	30 June 2022 (Shs)	30 June 2021 (Shs)
Wages and salaries	10,559,751,268	38,069,184,501
Social contributions	3,329,031,904	3,467,074,886
Other employment costs	487,276,492	699,124,816
Total employee costs	44,376,059,664	43,235,384,203

Note 8: Goods and Services

Expenditure on goods and services during the year principally comprise the following:

	30 June 2022 (Shs)	30 June 2021 (Shs)
General expenses	1,598,490,344	1,521,154,407
Communications	381,732,313	371,171,077
Utility and property expenses	1,383,604,306	1,239,534,787
Supplies and services	417,446,433	359,363,526
Professional services	49,450,000	48,600,000
Insurances and license	25,258,150	29,983,296
Travel and transport	665,662,524	542,459,106
Maintenance	433,972,684	421,956,303
Inventories (goods purchased for resale)	0	-
Total cost of goods and services	4,965,596,756	4,534,122,502

Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

Note 9: Consumption of Property, Plant and Equipment (Fixed Assets)

As explained in accounting policy (xi), property, plant and equipment (physical assets) are expensed in the year of purchase i.e. they are fully expensed in the year of purchase using the cash basis of accounting.

	30 June 2022 (Shs)	30 June 2021 (Shs)
Non Residential buildings	383,818,074	855,548,025
Residential buildings	195,000,000	260,000,000
Roads and bridges	177,204,043	50,000,000
Transport equipment	0	-
Machinery and equipment	156,195,173	319,453,127
Furniture and fittings	70,573,316	200,000,000
Other fixed assets	98,626,556	136,987,733
Total value of property, plant and equipment expensed	1,081,417,662	1,821,888,885

Note 10: Subsidies

Subsidies paid during the year are summarized as below:

	30 June 2022 (Shs)	30 June 2021 (Shs)
To public corporations	-	-
To private enterprises	-	-
To private individuals	-	-
Total subsidies for the year	-	-

Note 11: Transfers to Other Organisations

Transfers made during the year are summarized as below:

	30 June 2022 (Shs)	30 June 2021 (Shs)
Transfer to foreign Governments	-	-
Transfers to International Organisations	-	-
Transfers to other government units	220,995,500	153,303,200
To resident non government units	220,995,500	153,303,200
Total transfers	220,995,500	153,303,200

Note 12: Social Benefits

Social benefits paid during the year comprise:

	30 June 2022 (Shs)	30 June 2021 (Shs)
Pensions	-	-
Employer Social benefits	-	-
Total social benefits	-	-

Government of the Republic of Uganda
Financial Statements for period ended 30th June 2022

Note 13: Other Operating Expenses

These comprise:

	30 June 2022 (Shs)	30 June 2021 (Shs)
Property expenses other than interest	-	-
Miscellaneous other expenses- current	3,012,194,745	2,532,325,135
Miscellaneous other expenses- capital	0	0
Total other operating expenses	3,012,194,745	2,532,325,135

Note 14: Foreign Exchange Gains and Losses

During the year, foreign exchange losses and gains were as follows:

	30 June 2022 (Shs)	30 June 2021 (Shs)
Realized loss / gain (SFT)	-	-
Unrealized loss / gain (SCE)	-	-
Net foreign exchange gains / losses	-	-

Note 15: Finance costs
